Date

1. On August 10, 2001, the instant application was filed with the United States Patent and Trademark Office. The application is entitled DELAY CIRCUIT AND METHOD, and received application serial number 09/927,426. The Application names the following inventors: Messrs. William A. Phillips, Mario Paparo, and Piero Capocelli, all of whom were employed by the assignee, STMicroelectronics, Inc. ("STMicroelectronics"), at the time the parent application was filed.

2. Mr. Phillips' last known address is 4708 Holly Tree Drive, Dallas, Texas 75287.

3. A reissue declaration executed by all of the inventors was submitted in the instant application on June 25, 2008.

4. In the Office Communication mailed August 21, 2008, the Examiner required a supplemental oath or declaration be submitted to include the extensive amendments made since the filing of the previous declaration.

5. On December 8, 2008, a first email was sent to STMicroelectronics requesting current contact information for each of the inventors. Ms. Angie Rodriguez, a Paralegal employed with STMicroelectronics, responded, providing current email addresses for Messrs. Paparo and Capocelli and indicating that she did not have any contact information for Mr. Phillips; she suggested asking Messrs. Paparo and Capocelli for any contact information they might have for Mr. Phillips. A copy of the email string between the undersigned and Ms. Rodriguez is attached as Exhibit A.

6. On December 11, 2008, the undersigned emailed Messrs. Paparo and Capocelli requesting execution of the supplemental declaration and inquiring as to whether either of them had current contact information for Mr. Phillips. Copies of the relevant emails are attached as Exhibit B.

7. On December 12, 2008, Mr. Capocelli provided the supplemental declaration he had executed via email and indicated that he had no knowledge of Mr. Phillips' address. A copy of the relevant email is attached as Exhibit C.

8. On December 16, 2008, the undersigned sent a follow up email to Messrs. Paparo and Capocelli, a copy of which was sent to STMicroelectronics, summarizing progress made in obtaining the signed supplemental declaration, and again requesting either current contact information for Mr. Phillips or, alternatively, confirmation that none of the addressees of the email had current contact information for Mr. Phillips. A copy of the relevant email is attached as Exhibit D.

9. On December 16, 2008, Mr. Paparo responded to undersigned's email of December 12, 2008, including his signed copy of the supplemental declaration and confirming that he has no knowledge of Mr. Phillips' current address or occupation. A copy of the relevant email string is attached as Exhibit E.

10. On January 22, 2009, undersigned forwarded a physical letter enclosing a copy of the supplemental declaration for execution by Mr. Phillips to his last known address via UPS courier. Copies of the letter and tracking slip are attached as Exhibit F.

11. Three separate delivery attempts were made by the UPS courier service: first on January 23, 2009, then on January 26, 2009, and again on January 27, 2009. A copy of the tracking detail for the package is attached as Exhibit G.

12. Numerous attempts were made throughout this timeframe to locate Mr. Phillips via Social Networking and online database web sites including Facebook, LinkedIn, Google, Naymez, and Spoke. No attempt to contact any William Phillips resulted in success.

Application No.: 09/927,426

Re: U.S. Patent Application No. 09/927,426  
Your File No.: 1678-41  
Our File No.: 95-L-024RE

Dear Patrick,

Summary of Response:

1. The Examiner has issued a final Office Action rejecting all claims. However, the rejection is merely for a defective reissue oath.
2. As is typically standard with reissue applications, we need to file a supplemental reissue oath/declaration that specifically identifies the errors as addressed in any amendments made during the reissue proceedings. Now that the Examiner has indicated allowability (again), we need only file a proper supplemental reissue oath/declaration. This document is attached for the inventors to sign.
3. We also include a draft of the response to accompany the filing of this new oath/declaration. There is nothing substantive to review in this response.

Inventors: William A. Phillips, Mario Paparo, Piero Capocelli

To avoid incurring additional extension of time fees, we will need to file this response on or before **December 29, 2008**. Please have the inventors sign this document (or provide us with the inventors' email addresses so that we may pursue it) and return to us at your earliest convenience.

If we can be of further assistance, please do not hesitate to contact us.

Best regards,

Hello gentleman,

As a follow-on to our most recent emails back and forth, I have now received the signed declaration from Mr. Capocelli (thank-you) but I am still waiting for the signed document from Mr. Paparo.

Also, as Mr. Capacelli has said, Mr. Phillips is no longer with ST and we will need to try to locate him. As such, Mr. Capocelli and Ms. Rodriguez have already indicated that they do not know any contact information for him. Does anybody else have any contact information, such as last known email address or phone number? Basically, we will need to try to find him and contact him. If we can show that we made an effort to locate him, but were unsuccessful, then we can sign an affidavit (signed by us as your attorneys) stating that the inventor is unavailable. With that, even if you do not have any last known contact information, please respond by saying as much.

To recap:

1. Waiting for signed document from Mr. Paparo.
2. Requesting a response from Mr. Paparo and Mr. Holmes about any knowledge (or lack thereof) of Mr. Phillips last known contact information.
3. Preferably accomplish tasks 1 and 2 within the week.

Best regards,

*Kevin D. Jablonski*

Dear Kevin

Please find attached, the page of the declaration signed as requested.

You should receive by mail the document, in original, in the coming days

He was working with me, at ST Microelectronics in Livonia(Mi). I've returned from US in 1994

I lost contacts with Mr William Phillips since then  
I will look again in my old address book, to find possible traces of his latest address. At time sorry no clues about his current address or occupation.

I take the occasion to wish you and to long time not seen colleagues, A Merry Xmas and fruitful new Year.

Kind Regards

Mario Paparo
